CAREER OBJECTIVE

Final-year Computer Science student seeking a Python Developer role. Built REST APIs and web apps with Django and FastAPI during an internship and personal projects. Eager to learn and contribute to a product team.

EDUCATION

B.Tech in Computer Science and Engineering, Government Engineering College, Kozhikode | 2022 - 2026

- CGPA: 8.7 / 10 (till 7th semester)

Higher Secondary (Class XII), Kendriya Vidyalaya Kozhikode | 2022

- Score: 94%

SKILLS

Programming: Python, Java, C, JavaScript
Web: Django, FastAPI, Flask, HTML, CSS, Bootstrap, REST API
Databases: PostgreSQL, MySQL, SQLite
Tools: Git, GitHub, Docker (basic), Postman, VS Code, Linux
Core: Data Structures, Algorithms, OOP, DBMS, Computer Networks

INTERNSHIP

Python Developer Intern, CodeCraft Solutions, Cyberpark Kozhikode | May 2025 - Jul 2025

- Developed 8 REST API endpoints in FastAPI for a school management system used by 1,200 students.
- Wrote unit tests with pytest, increasing test coverage from 40% to 75%.
- Fixed 20+ bugs reported in Jira and took part in daily Agile stand-ups.

PROJECTS

College Event Portal | Django, PostgreSQL, Bootstrap

- Built a portal for event registration and certificates; handled 600+ registrations during the college fest.

Expense Tracker API | FastAPI, SQLite, Docker

- Designed a REST API with JWT login and monthly reports; deployed it with Docker.

Weather Chatbot | Python, Flask, OpenWeather API

- Telegram-style chatbot that answers weather questions for any city.

CERTIFICATIONS & ACTIVITIES

NPTEL: Programming, Data Structures and Algorithms using Python (Elite, 2024)
Volunteer, IEEE Student Branch - organised a 2-day Python workshop for 80 students
